

Introduction to PTC FlexPLM 11.0 for the Implementation Team

Overview

Course Code TRN-4765 -T

Course Length 3 Days

In this course, you will learn discuss the high-level processes of FlexPLM. You will learn how to complete basic FlexPLM functions, including how to access and browse in the FlexPLM environment. You will learn how to locate and view product information and how to manage principle business objects such as Seasons, Products, and Colorways. You will gain a high-level understanding of how to find and create objects in the FlexPLM Library used for the day-to-day management of plans, concepts, materials, and product line development data, as required by the FlexPLM user community.

Course Objectives

- Access and navigate within the FlexPLM environment
- Locate and view information stored in FlexPLM
- Create and manage palettes, colors, and materials to be used for product development in FlexPLM
- Modify and manage FlexPLM seasons, products, and colorways
- Initiate line plan development and manage seasonal product definitions, sources, and cost sheets
- Use line sheet views to present and manage product development for a Season
- Manage product specifications and their components
- Manage product samples and details
- Manage vendors

Prerequisites

- Basic browser and Web navigation skills
- Basic understanding of Product Lifecycle Management processes and deliverables as they relate to seasonal product development

Audience

- This course is intended for production staff and system support staff. People in related roles will also benefit from taking this course.

Agenda

Day 1

Module 1	Development Process Overview
Module 2	FlexPLM Environment
Module 3	Locate and View Information
Module 4	Views and Filters
Module 5	Merchandise and Assortment Planning Overview
Module 6	Create Season
Module 7	Review Historical Data
Module 8	Create Merchandise/Assortment Plan
Module 9	Create Product Line
Module 10	Track Line Development
Module 11	Concept Development Process Overview
Module 12	Review Previous Season's Data
Module 13	Create Reference Documents
Module 14	Define Creative Direction
Module 15	Create Season Palettes
Module 16	Create Sub Palettes

Day 2

Module 17	Color and Artwork Management Overview
Module 18	Color Development
Module 19	Use Colors
Module 20	Color Sample Request
Module 21	Color Sample Submitted
Module 22	Color Sample Evaluation
Module 23	Material and Component Management Overview
Module 24	Material Development
Module 25	Material Request Options
Module 26	Material Sample Submitted
Module 27	Material Sample Evaluation
Module 28	Rationalize Library
Module 29	Creative Design Process Overview
Module 30	Create Product Illustrations

Module 31	Associate Materials and Colors
Module 32	Create Products to Season/Placeholder
Module 33	Add Images to FlexPLM Image Page
Module 34	Line Management Overview
Module 35	Build Product Line
Module 36	Review and Refine Product Line
Module 37	Confirm Product Line
Module 38	Create Colorways

Day 3

Module 39	Product Specification Process Overview
Module 40	Manage Component Templates
Module 41	Develop Specifications
Module 42	Validate Specifications
Module 43	Sample Management Process Overview
Module 44	Create Sample Request
Module 45	Review Request/Submit Sample
Module 46	Track Sample Status
Module 47	Evaluate Samples
Module 48	Document Evaluation
Module 49	Communicate Evaluation
Module 50	Supplier Management Process Overview
Module 51	Validate Suppliers
Module 52	Evaluate and Approve Suppliers
Module 53	Source Allocation
