On Your Schedule!

Designed for the employed individual who needs fast and flexible training options to optimize their job skills. Six & twelve-month programs available.

Train remote or in-center, when you want to, while maintaining on-demand access to Ve-I instructors. Training lessons also available 24/7 for self-study.

Remote Attendance: Tap directly into our training center remotely and work with our on-staff instructors, on-demand, like you would in a physical training room. Instructors can talk to you and view your workstation session to assist or share their own screen to lecture.

In-Center Attendance: For a small, one-time, incremental fee, students can upgrade their program and attend training in our physical training center. As always, our instructors are available on-demand when you need them. Ve-I provides the facility, workstation & software required to execute the coursework. You can attend based on your schedule, not ours. Attendance need not be contiguous. We accommodate your schedule!

If you do not see what you want listed, just ask! Older software revisions supported.

These are all the full comprehensive training courses that can be taken remotely or in-center, both with on-demand instructors. This is the “I’ve get to get out of my office to focus”, “I need to speak to an instructor when I need them”, “I can’t possibly remember all this, I’m really glad I can call a VE instructor on-demand”, “I can’t stop to sharpen my ax, I’m too busy trying to cut this tree down”, “I can’t believe how much I learned I think my head is going to explode” type of training, but in a superior, flexible, self-paced, instructor on-demand, interactive, learning environment that works around your schedule.

Did we mention it will make you smarter?

So, not convinced because you think you know it all already, maybe because you have been using Revit since Architectural Desktop days? Take our “You don’t know what you don’t know” challenge. We offer a money back guarantee if you don’t feel you have made significant improvement in your modeling & detailing skills to justify the cost of the program. Ask for details!

Optional Bonus Pack
