We are a Veteran Friendly Institution

SolidWorks
Skills Optimization Program

Live Instructors “On-Demand”
Unlimited Instructor Access
All Guaranteed-to-Run
Remote and In-Center
On Your Schedule

On Your Schedule!

Designed for the employed individual who needs fast and flexible training options to optimize their job skills. Six & twelve-month programs available.

Train remote or in-center, when you want to, while maintaining on-demand access to Ve-I instructors. Training lessons also available 24/7 for self-study.

Remote Attendance: Tap directly into our training center remotely and work with our on-staff instructors, on-demand, like you would in a physical training room. Instructors can talk to you and view your workstation session to assist or share their own screen to lecture.

In-Center Attendance: For a small, one-time, incremental fee, students can upgrade their program and attend training in our physical training center. As always, our instructors are available on-demand when you need them. Ve-I provides the facility, workstation & software required to execute the coursework. You can attend based on your schedule, not ours. Attendance need not be contiguous. We accommodate your schedule!

If you do not see what you want listed, just ask! Older software revisions supported.

Classes can be taken individually

Pricing is subject to change at any time. Ve-I reserves the right to change fees, courses, topics, policies, programs, services and personnel as required. All classes listed are available for 6 to 12 months depending on program purchased. “Unlimited” refers to instructor and facility access during our normal business hours, which are Monday – Friday from 8:00AM to 5:00PM except Federal Holidays and shutdowns. Most course material can be accessed 24/7 for afterhours study. Instructor support is limited to purchased training materials and labs. Remote students must have access to legal CAD Licenses and required modules for the training. A Student Edition may be supplied for an additional fee. Remote setup assistance is included.
These are all the full comprehensive training courses that can be taken remotely or in-center, both with on-demand instructors. This is the “I’ve get to get out of my office to focus”, “I need to speak to an instructor when I need them”, “I can’t possibly remember all this, I’m really glad I can call a VE instructor on-demand”, “I can’t stop to sharpen my ax, I’m too busy trying to cut this tree down”, “I can’t believe how much I learned I think my head is going to explode” type of training, but in a superior, flexible, self-paced, instructor on-demand, interactive, learning environment that works around your schedule.

Did we mention it will make you smarter?

So, not convinced because you think you know it all already, maybe because you have been using SolidWorks since SolidWorks 95 days? Take our “You don’t know what you don’t know” challenge. We offer a money back guarantee if you don’t feel you have made significant improvement in your modeling & detailing skills to justify the cost of the program. Ask for details!

Optional Bonus Pack
