

On Your Schedule!

Designed for the unemployed, this program provides comprehensive training that is fast & flexible. You can choose electives from all of our other courses plus additional lab work and projects to build a portfolio for potential employers. If you get a job before your scheduled completion date, we will extend your program out to a full 12 months at no charge to you or your future employer. Who else will do this for you? Our Certificate programs give you the experience employers are looking for!

Train remote or in-center, when you want to, while maintaining on-demand access to Ve-I instructors. Training lessons also available 24/7 for self-study.

In-Center Attendance: Attend training in our physical training center. Our instructors are available on-demand when you need them. Ve-I provides the facility, workstation & software required to execute the coursework. You can attend based on your schedule, not ours.

Remote Attendance: Tap directly into our training center remotely and work with our on-staff instructors, on-demand, like you would in a physical training room. Instructors can talk to the students and view their workstation session to assist or share their own screen to lecture.

Please note that students who already have active matching certifications may opt to take electives in place of the associated core courses. Proof of active certification status must be presented at time of registration.

Ve-I is State of MA Section 30 & TAA Approved
Program is WIOA/Section 30/Trade Act Eligible
Ve-I is a Licensed Post-Secondary Education Institution

We are a Veteran Friendly Institution

“GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.”

***Classes can be taken individually.
If you do not see it listed, just ask.***

Pricing is subject to revision at any time. Ve-I reserves the right to change fees, courses, topics, policies, programs, services and personnel as required. “Unlimited” refers to instructor and facility access during our normal business hours, which are Monday – Friday from 8:00AM to 5:00PM except Federal Holidays and shutdowns. Most course material can be accessed 24/7 for afterhours study. Instructor support is limited to purchased training materials and labs. Remote students must have access to legal CAD Licenses and required modules for the training. A Student Edition may be supplied for an additional fee. Remote setup assistance is included.

Cybersecurity & Information Technology (IT) Certificate Program

This program begins with teaching basic IT skills to ensure the student is properly prepared to learn more advanced IT and Cybersecurity functions. Coursework and labs teach and prepare students to obtain Industry Recognized Certifications including, but not limited to, CompTIA ITF+, CompTIA A+ and CompTIA Network+ Certifications. Coursework also includes preparation to take several other industry recognized Microsoft Windows and Windows Server certifications.

Once commanding a thorough knowledge of IT Fundamentals, the student will dive into system virtualization then commence to the world of Cybersecurity by learning fundamental skills such as network security, penetration testing (Ethical Hacking) and other skills in order to be fully prepared to take the CompTIA Security+ Certification Exam.

Visible Edge Institute
