We train on *your* schedule.

Visible Edge Institute has been providing classroom training for over 30 years and remote training for over a decade. Our flexible, comprehensive training programs are designed to accommodate individuals of *all* skill levels.

As a Licensed Post-Secondary Educational Institution, our training provides students with hands-on experience, in-depth skills in leading applications, and industry-recognized certifications. You'll get the opportunity to earn industry-recognized certifications in all of our programs.

Train remotely or in-center, while maintaining on-demand access to our live instructors. Students can also access training lessons 24/7 for self-study.

Remote Attendance: Remotely tap into our training center to work directly with live instructors on-demand via phone, video call, screen sharing, email, chat or text.

In-Center Attendance: Choose to attend training in our physical training center on your schedule, not ours. Our renovated in-center learning environment utilizes state of the art equipment and modern learning techniques including one-on-one live instructor interactions, digital materials, labs, and project work.

You may qualify to have your entire program paid for, 100%, with no out-of-pocket costs to you. All programs are federally approved by WIOA, Section 30, Trade Adjustment Act, Vocational Rehab, and more.

We are a Veteran Friendly Institution.

DATA ANALYTICS TECHNOLOGIES

Learn the discipline, theory, technology, and application of Data Analytics - along with top applications used throughout the industry.

VISIBLE EDGE

DATA IS TRANSFORMING AND POWERING BUSINESSES ACROSS THE GLOBE

From hospitals to cities, higher education, and global organizations - Data is powering businesses all around the world.

The proliferation of data across all sectors of the global economy has given rise to one of the most in-demand, booming fields today - Data Analytics.

Our Data Analytics Technologies program starts off by introducing students to fundamental data analysis topics and technologies - such as business data analysis, data science, computer science, statistics, Python, SQL, and other related industry topics.

A vast range of electives are also included to expand your skill set, strengthen your knowledge, increase your employment marketability, give you a competitive edge, and help you excel within your role.

Choose to learn about elective topics such as Business Intelligence (BI), Power BI, GIS, LabVIEW, MATLAB, Tensorflow, R Programming, Root Cause Analysis, Statistical Modeling, Deep Learning, Natural Language Processing (NLP), and other similar topics.

Whether you're looking to become an industry member or you're already an experienced member of the workforce - our programs can be customized to provide the skill set required to excel within the data industry.

HIGHLIGHTS...

Master the discipline, theory, technology, and application of Data Analytics - along with essential programs and applications used throughout the industry today.

Discover numerous aspects of this industry, as well as surrounding industries. through your elective courses. Choose from courses like Python, Pandas, Java, SQL, MATLAB, DJANGO, Power BI, Visio, and more.

Learn data analytics and enter a path to a high-demand profession that will never lose importance, become obsolete, or decrease in value to companies - regardless of their size or industry.

YOU'LL HAVE THE OPPORTUNITY TO EARN INDUSTRY-RECOGNIZED CERTIFICATIONS, INCLUDING BUT NOT LIMITED TO:

- Tableau Certifications
- Data Analytics Professional
- Python Certifications
- Google Analytics Certification
- Artificial Intelligence (AI) Certifications
- Machine Learning Certification
- Microsoft Excel Certification

CORE CURRICULUM FOR THIS PROGRAM INCLUDES...

- Data Analytics Fundamentals
- Microsoft Excel
- Statistics for Data Science & Business Analysis
- SQL
- Tableau
- Tableau Certification Preparation + Exam
- Data Visualization
- Data Wrangling
- Python
- Pandas
- Artificial Intelligence (AI)
- Data Analytics Professional Certification Preparation + Exam

ADDITIONAL ELECTIVE TOPICS MAY INCLUDE...

- Programming
- Natural Language Processing (NLP)
- PyTorch
- MySQL
- LabVIEW
- MATLAB
- R Programming
- Root Cause Analysis
- Deep Learning
- Computer Science
- Probability
- Tensorflow
- Git & GitHub
- Java
- DJANGO
- Scala
- Apache
- Business Analysis
- Microsoft Applications (Word, Excel, Outlook, Teams, OneNote, Sharepoint, Project, Visio, Access, Power BI and more)
- Google Analytics
- Google Gemini
- Amazon Web Services (AWS)
- ChatGPT
- *and more.*
