We train on *your* schedule.

Visible Edge Institute has been providing classroom training for over 30 years and remote training for over a decade. Our flexible, comprehensive training programs are designed to accommodate individuals of ***all*** skill levels.

As a Licensed Post-Secondary Educational Institution, our training provides students with hands-on experience, in-depth skills in leading applications, and industry-recognized certifications. You'll get the opportunity to earn industry-recognized certifications in all of our programs.

Train remotely or in-center, while maintaining on-demand access to our live instructors. Students can also access training lessons 24/7 for self-study.

Remote Attendance: Remotely tap into our training center to work directly with live instructors on-demand via phone, video call, screen sharing, email, chat or text.

In-Center Attendance: Choose to attend training in our physical training center on your schedule, not ours. Our renovated in-center learning environment utilizes state of the art equipment and modern learning techniques including one-on-one live instructor interactions, digital materials, labs, and project work.

You may qualify to have your entire program paid for, 100%, with no out-of-pocket costs to you. All programs are federally approved by WIOA, Section 30, Trade Adjustment Act, Vocational Rehab, and more.

We are a Veteran Friendly Institution.

NETWORK ADMINISTRATION TECHNOLOGIES

Learn to confidently manage and deploy network infrastructures within business environments.

VISIBLE EDGE

EXPLORE HOW TO EFFICIENTLY MANAGE AND DEPLOY NETWORK INFRASTRUCTURES WITHIN VARIOUS BUSINESS ENVIRONMENTS

Our comprehensive Network Administration Technologies program was designed to provide training on the management and deployment of network infrastructure within business environments.

During our program, you'll get the opportunity to become proficient in the fundamental aspects of networking - from networking foundations to network media, IP addressing, subnetting, routing, and other crucial areas.

Continue on in the program to explore protocols, Local Area Networks (LANs), Wide Area Networks (WANs), CLI Tools, Open-Source Software, Advanced Cisco Routing, and Wireshark.

Your choice of electives are also included in the program to expand your skill set, strengthen your knowledge, increase your employment marketability, and give you a competitive edge. Choose to explore virtualization fundamentals using VMware ESXi & vSphere, the Industrial Internet of Things (IIoT), IIoT on Google Cloud, AWS, and CompTIA topics.

With over 30 years of experience in Information Technology, Visible Edge has been servicing our customer base of over 600 companies, providing everything from basic computer workstations to full network implementations. These programs share our vast industry knowledge with you.

YOU'LL HAVE THE OPPORTUNITY TO EARN INDUSTRY-RECOGNIZED CERTIFICATIONS, INCLUDING BUT NOT LIMITED TO:

- CompTIA Certifications - *including A +, Security +, Network +, ITF +, CySA +, PenTest +, Cloud +, and more.*
- Cisco CCNA
- VMware VCA
- VMwareVCP
- Microsoft Windows
- Microsoft Windows Managing Modern Desktops
- Microsoft Azure
- Windows Server
- IT Support Technician
- AWS Certifications - *including Data Analytics, Cloud Practitioner, Solutions Architect, DevOps Engineer, Developer, Machine Learning, Security, Advanced Networking, SysOps Administrator, and more.*
- Certifications in Microsoft Office 365 Associate Specialist for Outlook, Word, Excel, PowerPoint, and Access.

CORE CURRICULUM FOR THIS PROGRAM INCLUDES...

- CompTIA A+
- Network Administration Foundations
- Microsoft Visio
- CompTIA Network +
  - Certification Preparation + Exam

ADDITIONAL ELECTIVE TOPICS INCLUDE...

- Introduction to Cybersecurity
- CompTIA CySA+
- CompTIA Cloud +
- CompTIA Security +
  - Certification Preparation + Exam
- Cisco CCNA
  - Certification Preparation + Exam
- Virtualization
- VMware, vSphere, vSan, etc.
- Python
- Google Cloud Platform
- Industrial Internet of Thing (IIoT)
- Developing IIoT Specialization
- Industrial IoT Markets and Security
- Project Planning and Machine Learning
- Modeling and Debugging Embedded Systems
- Cloud Computing & Administration
- Emerging Technologies
- Network Security Analysis
- Wireshark, Snort, and SO
- AWS
- Azure
- Windows Virtual Desktop
- Ethical Hacking/Penetration Testing
- Kali Linux
- TCP/IP Subnetting
- Business Continuity & Disaster Recovery
- Cybersecurity Risk Management
- Windows PowerShell
- Windows Server
- Remote IT Administration
- IT Support Technician Fundamentals
- *and more.*
